

Study Group Survey

1. Are you interested in being part of the new weaving and historical research group (explained in the cover letter?)
2. Are you interested in weaving or historical research (or both)?
3. Would you like a mentor?
4. Would you be willing to be a mentor?
5. Would you be willing to join a Yahoo group dedicated to communications and draft and photo sharing as it relates to this study?
6. Out of the variety of ideas listed in the Study Group Proposal document, which sections are of interest to you? Be specific if you can.
7. Are you willing to share your work with the group and have it included in an online document that anyone will be able to access?
8. Do you have additional ideas and proposals that you think would make this group more valuable?

Right now, the best way to get the document is by downloading it. (See the study group proposal for the link). There is a missing page, and I can send you a file for it – just let me know that you need it. The book has been put in a bound format by an historical society, but the used copies can be very expensive. However, if you keep checking, you may find a reasonable price for it. It contains additional historical information which is interesting to read.
